

Abstract

The present invention relates to the use of alkoxylated alcohols
 (alcohol alkoxylates) as adjuvant for improving the fungicidal
 5 action of benzamide oxime derivatives of the formula (I)

15 such as, for example,
 N-phenylacetyl-2-difluoromethoxy-5,6-difluorobenzamide
 (O-cyclopropylmethyl)oxime or
 N-phenylacetyl-2-trifluoromethoxy-5,6-difluorobenzamide
 (O-cyclopropylmethyl)oxime.
